

Research Survey Report

July 1, 2016 - June 30, 2017

December 2017

A note about the 2016-2017 ASCO Research Survey Report . . .

In 2016, ASCO's Academic Research Committee rewrote ASCO's Annual Research Survey in order to simplify the data collection process as well as improve the clarity and utility of the resulting report. In this revised survey, only direct costs are included because total costs are dependent on indirect rates individually negotiated by universities and have little bearing on the amount of research funds received or research conducted. Typical indirect cost rates are reported for each school in part I of the report.

The direct costs reported in part II are listed by source and by science, with totals provided for each category as well as for each school. Relevant endnotes and definitions follow each part of the report.

The information from this survey can be used to estimate the total research funds provided to schools and colleges of optometry, estimate the time that optometry faculty use to conduct research and quantify the types of research conducted at the schools and colleges of optometry. Schools can also use the information to benchmark their research portfolio.

All of the information in this report can be used to educate public officials, educators, and administrators about the research conducted in optometry. Researchers must continue to push the frontiers of science in order to expand the scope and ability of optometry. The information that follows assists in quantifying the ability to do so.

Twenty-two of the 23 ASCO active member schools participated in this survey. Inter American University of Puerto Rico, School of Optometry was unable to participate due to Hurricane Maria. Please contact Joanne Zuckerman, ASCO's Manager, Data Services and Special Projects, at jzuckerman@opted.org with any questions about the report.

Abbreviations of ASCO Active Member Institutions
2016-2017 ASCO Research Survey

<u>Abbreviation</u>	<u>School Name</u>
AZCOPT	Midwestern University – Arizona College of Optometry
CCO	Chicago College of Optometry, Midwestern University
IAUPR*	Inter American University of Puerto Rico, School of Optometry
ICO	Illinois College of Optometry
IUSO	Indiana University, School of Optometry
KYCO	University of Pikeville, Kentucky College of Optometry
MCO	Michigan College of Optometry at Ferris State University
MCPHS	MCPHS University, School of Optometry
NECO	New England College of Optometry
NOVA	Nova Southeastern University, College of Optometry
NSUOCO	Northeastern State University – Oklahoma College of Optometry
OSU	The Ohio State University, College of Optometry
PUCO	Pacific University, College of Optometry
Salus/PCO	Salus University Pennsylvania College of Optometry
SCCOMBKU	Southern California College of Optometry at Marshall B. Ketchum University
SCO	Southern College of Optometry
SUNY	State University of New York, State College of Optometry
UABSO	University of Alabama at Birmingham, School of Optometry
UCB	University of California – Berkeley, School of Optometry
UHCO	University of Houston, College of Optometry
UIWRSO	University of the Incarnate Word, Rosenberg School of Optometry
UMSL	University of Missouri at St. Louis, College of Optometry
WUCO	Western University of Health Sciences, College of Optometry

* was unable to participate in 2016-17 survey due to Hurricane Maria

**Association of Schools and Colleges of Optometry
2016-2017 Research Survey - Part I**

(July 1, 2016 - June 30, 2017)

(Includes 22 U.S./Puerto Rican Schools - IAUPR was unable to participate due to Hurricane Maria)

	AZCOPT	CCO	ICO	IUSO	KYCO	MCO	MCPHS	NECO	NOVA	NSUOCO	OSU
1. Aggregate full time equivalent (FTE) ¹ of all faculty ² employed by Optometry	23.00	15.00	60.00	51.00	21.00	20.80	22.30	57.00	45.00	30.00	34.64

Association of Schools and Colleges of Optometry
2016-2017 Research Survey
(July 1, 2016 - June 30, 2017)

Part I Endnotes

¹FTE is during the faculty member's working period, regardless of whether the faculty member is on a 9 or 12 month appointment. Does not include faculty from other institutions who collaborate on research projects. Aggregate FTE in this question means the sum of the total FTE of each faculty member, regardless of whether the faculty member conducts administrative, clinical, didactic, or research duties.

²All faculty include tenure track, clinical track, and research track faculty who are paid by optometry.

³This is the FTE of the faculty who participate in research, not the FTE that they *use* to participate in research. FTE is during the faculty member's working period, regardless of whether the faculty member is on a 9 or 12 month appointment. Does not include faculty from other institutions who collaborate on research projects. Aggregate FTE in this question means the sum of the total FTE of each faculty member that participates in research, regardless of whether the faculty member conducts administrative, clinical, didactic, or research duties.

⁴Includes all tenure track, clinical track, and research track faculty who are optometry personnel who participate in research as a PI, masked examiner, statistician, etc. Does not include faculty from outside units who collaborate on research projects.

⁵FTE is the amount of FTE that a faculty member receives from external funds to participate in research. Does not include faculty from other institutions who collaborate.

⁶Includes all tenure track, clinical track, and research track faculty who are optometry personnel who receive external funding to participate in research as a PI, masked examiner, statistician, etc.

⁷UC does not allow except for summer salary

⁸Includes students in combined OD/MS program and Master's of Public Health if administered by optometry.

⁹Includes students in combined OD/PhD program if administered by optometry.

¹⁰Includes staff members who are paid from sponsored research projects who work in research for any amount of time.

¹¹Clinical research = healthcare science that determines the safety and efficacy of medications, devices, diagnostic products and treatment regimens intended for human use; they may be used for prevention, treatment, diagnosis or relieving symptoms.

¹²Basic research = scientific research to improve scientific theories for improved understanding or prediction of phenomena.

¹³Translational research = applied findings from basic science to enhance human health and well-being; translation of fundamental research findings into meaningful health outcomes.

¹⁴For UABSO, all animal care space is outside of optometry. For UHCO, all animals are in the Animal Care Operations 31,000 sq ft vivariums which are in one of the buildings in which optometry is housed.

¹⁵These are costs incurred by the university due to a research project, such as departmental accounting, network support, equipment depreciation, building and facilities operation and maintenance, library, and sponsored projects administration. These costs are charged as a percent of some of the direct cost elements. For example, if the indirect rate is 50%, then the sponsor pays an additional \$50,000 on a \$100,000 project. "Not Applicable" indicates that an institution does not have a standard indirect cost rate.

**Association of Schools and Colleges of Optometry
2016-2017 Research Survey - Part II**

(Includes Direct Costs Awarded July 1, 2016 - June 30, 2017)

(Includes 20 of 23 schools; 2 had no awards and IAUPR was unable to participate due to Hurricane Maria)

2016-2017 Research Survey
(July 1, 2016 - June 30, 2017)

Part II Definitions

Clinical	Healthcare science that determines safety & efficacy of medications, devices, and treatments for human use.
Translational	Applied findings from basic science to enhance human health and well-being.
Basic	Scientific research to improve understanding or prediction of phenomena. If science is basic and translational, then it is called translational. If science is translational and clinical, then it is called clinical. These definitions were adapted from several sources.
Federal: NIH	All other NIH institutes except National Eye Institute.
Federal: Other	National Science Foundation, Department of Defense, etc.
