NOVA Nova Southeastern University, College of Optometry	5	26	0	31	NOVA Southeastern University College of Optometry has a total of 41 residency positions. NOVA has nine (9) in-house residency positions including one (1) full pediatric and binocular vision position and eight (8) primary care positions which allow for an area of emphasis in either pediatrics/binocular vision, cornea/contact lenses, ocular disease, or low vision. In addition, NOVA sponsors fifteen (15) external residency sites with thirty-two (32) positions located within both private practices, hospitals, and Veteran Affairs Medical Centers throughout Florida and Atlanta, GA.
NSUOCO Northeastern State University- Oklahoma College of Optometry	4	8	0	12	Northeastern State University Oklahoma College of Optometry is dedicated to excellence in residency education and regards the training of its residents as one of its highest priorities. Residency sponsors include the Oklahoma College of Optometry, referral/surgery centers, private clinics, Veterans Affairs Medical Centers and the U.S. Army. Programs are located in Oklahoma, Texas, Missouri, Arkansas, North Carolina, and Canada. Each residency program has a strong clinical emphasis and is well-rounded with educational activities such as teaching, literature review, case presentation and research.
OSU The Ohio State University, College of Optometry	6	18	0	24	The Ohio State University has 15 residency sites. These sites are located in Academic Medical Centers, the College of Optometry, Children's Hospitals, Private Practices and at Veterans Affairs Medical Centers and Outpatient Clinics. We offer programs in three categories: Ocular Disease, Cornea and Contact Lenses and Pediatric Optometry. A listing of the residency programs affiliated with The Ohio State University College of Optometry can be found at https://optometry.osu.edu/academics/residency-programs/program-descriptions .
PCO/Drexel Pennsylvania College of Optometry, Drexel University, Elkins Park Campus	8	29	0	37	PCO at Drexel University offers a diverse selection of residency programs at The Eye Institute in Philadelphia, PA, as well as at its various affiliated residency sites, which include VA hospitals and large tertiary care OMD/OD practices spanning from Upstate NY to central FL. On-Campus Residency Programs: Primary Eye Care/Ocular Disease; Pediatric Optometry/Vision Therapy; Low Vision Rehabilitation; Cornea and Contact Lenses; Neuro Ophthalmic Disease (2 year program - 1 resident taken each year). Off-Campus Residency Programs: OMNI Eye Services of NJ, Iselin, NJ; Wilkes-Barre VAMC, Wilkes Barre, PA; Erie VAMC, Erie, PA; Wilmington VAMC, Wilmington DE; Baltimore VAMC, Baltimore MD; Baltimore OMNI, Baltimore MD; Seidenberg and Protzko Eye Associates, Havre de Grace, MD; Virginia Eye Consultants, Norfolk, VA; James A. Haley Veterans' Hospital, Tampa, FL; Newsom Eye, Tampa, FL; Mid Atlantic Cornea Consultants, York, PA; Rochester Regional Health/Reed Eye, Pittsford; University of Pittsburgh Medical Center, Pittsburgh, PA; Vistar Eye Center, Roanoke, VA.
PUCO Pacific University, College of Optometry	Not Available	Not Available	Not Available	18	Pacific University College of Optometry has 26 residency positions at 16 affiliated sites across the US and Canada. There are 14 residency positions located within VA Medical Centers, 10 in private practices, and 2 positions at our college clinics. Affiliated programs include specialties in Cornea and Contact Lenses, Geriatric Optometry, Low Vision Rehabilitation, Ocular Disease, Pediatric Optometry, Primary Care Optometry, Refractive & Ocular Surgery, and Vision Therapy & Rehabilitation. Information about each program can be found on the PUCO residency program homepage: http://www.pacificu.edu/residency .
SCCOMBKU Southern California College of Optometry at Marshall B. Ketchum University	12	31	0	43	SCCO at MBKU hosts 25 residency programs / offers 51 residency positions across 6 different states (California, Nevada, Arizona, New Mexico, Utah, and Washington). Currently, we have 43 residents enrolled. We offer a variety of residencies in Primary Eye Care, Cornea and Contact Lenses, Geriatric Optometry, Pediatric Optometry, Low Vision Rehabilitation, Vision Therapy and Rehabilitation, Ocular Disease, Brain Injury Vision Rehabilitation. Our on-campus residencies include the Cornea and Contact Lenses and the Pediatric Optometry and Vision Therapy programs. We have a unique affiliation with 9 Indian Health Service and 8 Veteran Administration residency programs. We are also fortunate to expand our residency affiliations and partnership in residency education within 4 Health Maintenance Organizations and 4 private/co-management practices.
SCO Southern College of Optometry	5	26	0	31	Residency programs provide recent graduates with additional opportunities to greatly expand their clinical knowledge and skills. Southern College of Optometry (SCO) provides residency programs in: Ocular Disease, Pediatric Optometry, Primary Care Optometry, Vision Rehabilitation, and Cornea and Contact Lenses. Several programs have additional areas of emphasis. Most SCO in-house residencies are 12.5 months in length and typically begin July 1st. Some programs offer more than one position. Residents are provided an annual stipend and receive professional liability insurance and other benefits. Residency programs at SCO provide enhanced opportunities to attain advanced knowledge in specialty areas of interest, to develop clinical expertise in the diagnosis and management of difficult patient problems, to conduct clinical research, to interact with highly experienced faculty in all clinical areas and to interact with residents in other programs.
SUNY State University of New York, College of Optometry	7	31	0	38	SUNY, College of Optometry has been conducting year-long optometric residencies since 1974 (1974-1975 first class year), with the establishment of the Vision Therapy Residency. This was the first optometric residency program in the country and the third to receive accreditation status. Since that time, the residency programs affiliated with and at the College have expanded to include programs in the following areas: Cornea and Contact Lenses, Ocular Disease, Primary Care Optometry, Pediatric Optometry and Vision Rehabilitation, as well as a Combined Residency/Graduate Degree Program. Specific program areas of emphasis may include one or two of the above listed category titles and/or the following: Anterior Segment; Refractive and Ocular Surgery; Glaucoma; Retina; Low Vision Rehabilitation; Brain Injury Rehabilitation; Vision Therapy and Vision Rehabilitation; Community Health Optometry.

ÉOUM University of Montréal, School of Optometry	0	6	0	6	The University of Montreal, School of Optometry offers 6 full-time internal-external residencies in Cornea, Contact Lenses and Myopia control (1-2 residents), Low Vision Rehabilitation (1 resident) and Ocular Disease (1-2 residents) and Pediatric and Binocular Vision (1-2 residents) with the possibility of neuro-optometric rehabilitation. The residency program offers postgraduate advanced competency training in eye care through education, scholarship, and patient care. Information can be found on the residency program homepage at https://admission.umontreal.ca/programmes/certificat-de-residence-de-2e-cycle-en-optometrie/ (French only)
UWOVS University of Waterloo, School of Optometry and Vision Science	0	3	0	3	Optometric residencies are one-year, post-graduate, experiential training programs that advance patient care skills beyond entry-level practice. Residents provide supervised clinical eye and vision care services and experience a mix of learning methods including self-directed learning, seminar, workshop and conference participation, laboratory and clinical teaching, and scholarship activities. Cornea and Contact Lenses (1 position): This residency is designed to extend and refine your knowledge and skill in the areas of cornea and specialty contact lenses such as orthokeratology, corneal and scleral GP (for example keratoconus, ocular surface protection, multifocal and toric designs) and lenses for astigmatism, presbyopia and myopia control. Vision Rehabilitation: Emphasis on Low Vision Rehabilitation (1 position): The residency curriculum is an educational program focused on patient care primarily in the Low Vision Clinic, with some patient care in the Primary and Acute Care clinics and possibly the External Geriatrics clinic. Intended to enhance skills in the assessment and rehabilitation of individuals with low vision ages 3 and older. Ocular Disease: Emphasis on Glaucoma(1 position): This residency is designed to extend and refine your knowledge and clinical skills in the diagnostic and therapeutic management of patients with a variety of ocular diseases with an emphasis on the management of glaucoma. Pediatric Optometry: Emphasis on Vision Therapy and Vision Rehabilitation(1 accredited;1 non accredited positions): This residency is designed to extend and refine the resident's knowledge and skill in specific areas of pediatric optometry and binocular vision therapy, including management of dysfunctions of the eye movement, accommodative and binocular vision systems. Aspects of visual perceptual system assessment and management will also be covered. Primary Care: Emphasis on Ocular Disease (1 non accredited position): This residency is designed for the resident to learn advanced management of complex cases. Residents will become proficient in managing ocular disease in a rural optometric setting.
